About Me

I'm from Miami and I'm interested in music, marketing, computer science, and product design.

Work Experience

Hasty Pudding Theatricals

October 2015 – Current Date

Business Assistant – Group Sales – As a Business Assistant I had a few responsibilities. For group sales I aided our head of Group Sales in organizing and contacting the groups that had come to our shows in the past. Additionally I helped organize some group-oriented events. I spent much of my time contacting companies to offer ad spots in our playbill and other sponsorship opportunities. I helped promote and sell tickets on campus.

Lifeguard

June 2015 – August 2015

As a lifeguard I was in charge of giving swimming lessons to the kids and keeping the pool area in order. Their ages ranged from 3 to 13.

LAB Miami

May 2014 – August 2014

Intern – The LAB Miami is an open workspace in Wynwood where various entrepreneurs work on their own individual startups in a collaborative environment. I helped various members of the LAB on their startups, gave visitors in Wynwood tours of the space in English and Spanish, and did various other tasks in the LAB space

Young Musician's Unite

January 2012 – Current Date

Founder – As a freshman my friends and I formed a band and began hosting jams/concerts at our houses. We, together, thought it would be really cool if we could charge at the door and donate the money. Thus, Young Musician's Unite is an organization that raises money through local bands in Miami to expand music programs throughout the area. For more information, visit <http://youngmusiciansunite.org> or feel free to contact me.

Education

Harvard College

Class of 2019

Computer Science

Ransom Everglades High School

Class of 2015

Extracurricular and Hobbies

Club Running**September 2015 – Current Date**

We run every day around 4.

Harvard Financial Analysts Club**September 2015 – Current Date**

HFAC provides club members with sound financial education programs and real-world investment experience. To join the club you have to go to weekly meetings where you learn about finance and the investment world

Music

I love music. I started learning piano when I was in the sixth grade, and my Grandma got me interested in the Ukulele my Freshman year of High School. I'm currently trying to pick up guitar and learn how to use Apple Logic Pro.
